10 Nov 1953

Charlie -

On 7 Oct 53, [REDACTED] addressed a dispatch to Gen. Cabell, urgently requesting approval to return this employee to Hqs, because of acute emotional disorders, marked by acute and persistent anxiety seizures. Gen. Cabell requested advice from Medical Office, which subsequently recommended return and holding in abeyance a determination of future assignment pending medical evaluation. This office then drafted a cable for Gen. Cabell's signature to [REDACTED] authorizing return to Hqs. This cable is now being coordinated with the DD/P's office. All copies of the correspondence referred to above (Dispatch from [REDACTED] as well as Dr. Tietjen's memo) are associated with the proposed cable now with DD/P.
